SEDALIA, MISSOURI, TUESDAY EVENING, JANUARY 12, 1909

VOL. 3, NO. 8. PRICE FIVE CENTS.

## BOTTLERS OF MISSOURI

ARE HOLDING THEIR FIRST ANNUAL MEETING IN SEDALIA TODAY.

### WILL J. CRAWFORD IN THE CHAIR

Adjournment Had Until 3 O'clock This Afternoon, When Mayor J. L. Babcock Delivered Address of Welcome.

Between twenty-five and fifty members of the Missouri Bottlers' Protective association are in the city to attend the first annual meeting of the association, which was called to order at the Elks' club rooms at 10 o'clock this morning.

Will J. Crawford, of Sedalia, vice president, presided, in the absence of President F. W. Myers, of St. Louis, who failed to arrive on account of delayed trains.

Immediately after the opening adjournment was taken until 3 o'clock

came here to investigate the report that a railroad rail had been placed across the tracks just south of Booneville Saturday morning, with a view to wrecking the northbound passenger train, went out to the scene of the accident with Sheriff Gault Sunday, and, after viewing the track and vicinity, immediately decided that there was no attempt by persons to wreck the train.

Their conclusion was that the jar of the passing local freight had caused one end of a rail laying beside the track to slip down the embankment far enough to balance it and to permit its other end to extend partially across the track. Thus the wrecking theory was exploded and the detectives went back to Sedalia.

## TO OPEN BALLOT BOXES

THIS WILL BE DONE TO SETTLE QUESTION OF LIEUTENANT GOVERNORSHIP.

### BI-PARTISAN COMMITTEE REPORTS

Nothing New Has Developed in the Case of the United States Senatorship—Stones Is Still Confident.

Special to the Democrat-Sentinel. Jefferson City, Mo., Jan. 12.—It was decided this afternoon to reopen the ballot boxes and recount the votes with a view to settling the question of whether Painter, democrat, or Gmelch, republican, was elected lieutenant governor on November 3.

#### An Earlier Dispatch.

Special to the Democrat-Sentinel. Jefferson City, Mo., Jan. 12.—There are no new developments in the lieutenant governorship contest.

The bipartisan committee has been in session all the morning, and will report to the joint session at 3 p. m. It is rumored that the vote in St. Louis, Kansas City and St. Joseph be recounted will be the recommendation of the committee, but even this report may not be adopted, as some members of both parties appear determined to stand by their candidate and insist on his election on the face of the returns now in.

Nothing new has developed in the senatorial situation.

## SOLD FARM FOR \$192,000

Hon. John T. Heard and John S. Elliott Did Well.

San Antonio, Texas, Jan. 12.—The largest real estate transaction of the year, so far, has just been closed between the Hust-Brundage company, of this city, and John T. Heard, of Sedalia, Mo., and John S. Elliott, of Booneville, Mo.

The property comprises about 24,000 acres of fertile land in Dimmit and Zavala counties. Although Messrs. Heard and Elliott held the tract only a little over two years, they practically doubled its price in the sale, realizing \$192,000.

It is the intention of the purchaser to cut up the land into 80-acre or larger tracts, where desired, and sell it to settlers. The newly acquired land adjoins other holdings of the firm, on one of which some time ago a fine artesian well was brought in, flowing at the rate of 1,200 gallons per minute.

## CLEANED OFF THE SNOW

The Ordinance Pretty Generally Complied With Today.

The snow ordinance was pretty generally complied with early this forenoon. Mike Rymer, janitor at the court house, put his snow plow in operation, and before 9 o'clock had the walks surrounding the block nicely cleaned, as well as the walks leading up to the building and steps on the four sides.

The merchants on Ohio avenue and other business streets put forth an early effort, and the sidewalks were, as a general rule, nicely cleaned before noon.

The residents of Broadway were out early with their shovels and brooms, and with one or two exceptions the school children had well cleared paths on their way to school.

One block, the early pedestrians ploughed through, others followed, and by noon a fairly good path was worked down, but that was the only attention given the walk.

## MONKEY ON THE STICK

## SEDALIA BOYS IN WHITE

THE REPUBLICAN FLAMBEAU CLUB AT THE CAPITAL LAST NIGHT.

### COMPLIMENTARY WORDS BY PRESS

Globe-Democrat Says the Display of Fireworks Was Especially Fine—Ardor Not Dimmed by Storm.

The Globe-Democrat of this morning had the following from Jefferson City in regard to the Sedalia Republican Flambeau club, written by its correspondent there, Major Sam Keller:

"Notwithstanding the nearly zero weather and the falling snow which prevailed here tonight, the Sedalia Republican Flambeau club gave an exhibition drilling of fireworks on the street near the mansion, which called several hundred people into the streets who braved the elements to witness the exhibition.

"The members of the club were decked out in white duck and wore helmets adorned with flaming torches. The club was in charge of Mayor Babcock and Captain Glenn. The club came to Jefferson City to attend the inauguration of Governor Hadley.

"Its display tonight was an especially fine one, the ardor of the members seemingly not being dimmed by the unpropitious weather."

The Jefferson City correspondent of the Kansas City Times sent the following to his paper:

A 6-inch fall of snow that made walking difficult spoiled the program for inaugural parades tonight. The Sedalia Flambeau club, first organized in the campaign that elected Benjamin Harrison twenty years ago, had arranged a special celebration.

Jefferson City has no street sweeping squad. The street commissioner has six men employed for all purposes and it was quite out of the question, with snow falling all the afternoon, for this squad to put the streets into shape for marching squads.

The Sedalia Flambeau club could not be robbed of all its fun, however,

The men lined up on High street, in their white uniforms and torches lighted and waited in line while one squad set off a mortar and shot explosive rockets high into the air. The white duck uniforms made the men look cold, and spectators shivered for them.

The St. Louis Republic's correspondent wrote as follows:

In the face of a driving snowstorm the Sedalia Flambeau club paraded the main streets in the vicinity of the governor's mansion tonight.

The drill of the club and its display of fireworks attracted a large crowd. Both were exceptionally good, in spite of unfavorable conditions.

## JAMES M'KEE PARDONED

ST. LOUIS MAN WHO WAS SENT UP FOR THREE YEARS FOR GAMBLING.

### MANY ASKED FOR EXECUTIVE CLEMENCY

He Went to St. Louis Monday Accompanied by Faithful Wife—Was Sentenced at the Capital of the State.

Jefferson City, Mo., Jan. 12.—W. I. McKee, known here as Big Jim McKee, was released from the penitentiary Monday by a pardon from Governor Folk, the last one he issued before going out of office.

McKee was sentenced to two years' imprisonment for running a gambling game in this city at 219 High street. When the place was raided by Sheriff Scott many young men of this city were caught, but were released because they were needed as witnesses.

McKee has been a model prisoner, and many prominent citizens, both of Jefferson City and St. Louis, signed the petition for pardon.

It was, however, through the indefatigable work of his faithful wife that he was released, for she stayed here and worked all the time.

Even after she was told the case was hopeless she never gave up in her efforts to obtain a pardon, with the result that she was able to leave on the afternoon train for St. Louis with him as her companion.

#### Condition of Mrs. Fischer.

Mrs. Adam Fischer, jr., wife of a Missouri Pacific fireman, who was injured in a runaway accident weeks ago, is still bedfast at the home of her sister, Mrs. H. J. Kelly, on East Tenth street, but is reported to be improving, although she experienced severe pain Monday from her broken off teeth.

## OYSTERS-CREAM PUFFS

THE EATING OF THESE PROVED FATAL TO A WOMAN IN ST. LOUIS.

### MRS. WELLS WAS CHRISTIAN SCIENTIST

Doctors Were Barred, but if She Had All the Ailments Attributed to Her They Could Not Have Prevented Her Death.

St. Louis, Mo., Jan. 12.—For fifteen years Mrs. Josephine E. Wells, of 4312 Cook avenue, refused to permit a physician to darken her door. She said that she did not believe in doctors and wouldn't have them around her.

At the end of the fifteen year period she died. Dr. Joseph Melnhard Monday made an autopsy and Monday he reported to the coroner that Mrs. Wells had tubercular lungs, hypertrophied heart, gastritis, cirrhosis of the liver, nephritic kidneys, gangrene of the pancreas and peritonitis.

Some of these diseases apparently had existed for years, and all were approaching the stage where they might soon have caused death.

Members of Mrs. Wells' family believe that her death Saturday was due to the fact that she ate oysters and cream puffs at the same meal Friday night.

"She became ill after supper," said her husband, Charles E. Wells, but we gave her home remedies. She seemed much better when I went to work Saturday morning, but when I went home for lunch she was dead. "I would have called a doctor had I known her condition was serious. I supposed it was just a case of indigestion."

"My wife and I became Christian Scientists fifteen years ago, and since then we have never felt the need of medical attention."

The coroner returned a verdict of natural death from peritonitis and pancreatitis.

At the inquest Wells testified that his wife had not been robust for several years. At the time of her death she weighed only ninety-eight pounds. A physician said yesterday that oysters and cream puffs eaten together would be indigestible, and that acute indigestion might have been the cause of death of a woman of Mrs. Wells' weakened condition.

Banks Elected Officers Today. The three national banks of the city held their annual meetings of stockholders today. The Third National and the Sedalia National re-

elected the old boards of directors, who in turn re-elected the old officers. The Citizens' National reduced its board of directors from six to five, owing to the death of Col. J. D. Crawford, and the old board was again chosen. Officers will be elected Saturday, when the present staff will be re-elected, except vice president, some person being chosen to succeed Col. Crawford, deceased.

#### Three Directors Were Chosen.

The election of directors of the Worrell Manufacturing company was held at the company's offices on South Lamine avenue, Monday afternoon, resulting as follows:

J. H. Rhodes and J. R. Van Dyne, both of Sedalia; J. R. Jesse, of Mexico, Mo. The time for the election of officers has not been fixed.

## "GHOST" CHANGED GARB

"WOMAN IN WHITE" NOW APPEARS AT MAPLEWOOD IN SOMBER BLACK.

### TOWN IN THE THROES OF EXCITEMENT

Charles M. Cox Said, "There Is No Ghost," but Has Changed His Mind After His Experience Sunday Night.

Danville, Ind., Jan. 12.—The little town of Maplewood, five miles north of Danville, is in the throes of excitement over a great scare, which has aroused some of the more superstitious residents.

A woman wearing a flowing, witch-like garb of black appears after the evening shadows have fallen at the front doors of houses and knocks, and just before the doors are opened suddenly disappears.

The last "apparition" was seen only Sunday night, when it knocked three raven-like taps at the front door of Charles M. Cox.

The story goes that on previous occasions Mr. Cox had discredited the story of the "spook" or "Maplewood ghost," as it had become known, and had tried to quiet the fears of the skeptical citizens in his neighborhood by declaring that there was "no such thing as a 'ghost,'" and that he would like to meet the practical joker who had been "working the scare." Now he says he doesn't want to see it again.

The legend of the "woman in black" dates back three years, though at first it was the "woman in white," her garb having been changed within the last year.

It is said that on one late wintry night, when the belated Danville town bus was being driven by "Bogash" McClelland from a school exhibition at Maplewood an object resembling a woman in white robes seized the reins of the horses and set them back on their haunches. When the driver jumped from the seat it vanished.

## THE "DIGGER" DUG OUT

Woman Went to Kansas City Saturday Afternoon.

Boonville, Mo., Jan. 12.—The mysterious woman "digger" who came here on New Year's day to dig for valuables filled up her diggings Saturday morning and "dug" out.

Nobody believes she found anything of value here, but simply gave up the quest in disgust.

She left on the afternoon train over the Missouri Pacific Saturday, stating that she was going back to Kansas City.

She had promised to reveal her correct name and all the particulars leading up to her visit here when she got ready to leave, but instead of doing so, she swore in vile language at the town and its people and defied all to catch up with her and her plans.

## PETTIS COUNTY CONVICT

Wardie Crockett, a Negro, Was Pardoned by Gov. Folk.

Jefferson City, Mo., Jan. 12.—A minute before Governor Folk retired he signed two additional communications, each ending a term of imprisonment in the penitentiary Feb. 1, 1909, as follows:

Thomas W. Morgan, convicted of murder in the second degree in St. Louis, May, 1907, and sentenced for twenty years; Wardie Crockett, convicted in Pettis county, April, 1908, of assault to kill, and sentenced for three years.

## 4,000 IMMORAL WOMEN

LIVE WITHIN A FEW BLOCKS OF CITY BUILDING IN CINCINNATI, OHIO.

### SO SAYS SCHOOL PRINCIPAL C. H. PORTER

Most of These People Are Forced Into Leading Double Lives by System of Low Wages Prevailing for Girls.

Cincinnati, O., Jan. 12.—"Within a few blocks of the city hall there are at least 4,000 girls leading immoral lives, and within one block of the building one woman runs an establishment—not a rooming house—and has 500 girls on her list that she can call at any time for such purposes, and most of these young women are forced into leading double lives by a system of low wages for women which exists in every city in the land."

So declared C. H. Porter, principal of the Whittier school, at a meeting of the Schoolmasters' club, in Almus & Doepke's restaurant yesterday.

The statement was made in discussing the great help that could be given Cincinnati young women who are compelled to earn their living, by the Charlotte Schmidlapp fund, through the earnest co-operation of the man at the head of the school and the trustees of the fund.

He described the workings of the fund in detail and read reports of Miss Edith Campbell, supervisor of the fund. He stated that in order to accomplish the best results and to prevent young women forced to earn their own living from working at salaries so low that it is impossible for them to live respectably, the school should assist in furnishing trustees of the fund information that would aid them in spending the money intelligently.

## THIS IS AN AWFUL CHARGE

Man of 45 Said to Have Ruined a Girl of 13 Years.

James Mock, an M. K. & T. shopman, 45 years old, occupies quarters in the county jail, facing the charge of having had carnal knowledge of Edna Mitchener, a 13-year-old girl, who has been making her home with him on East Booneville street.

Complaint was filed with Judge Clark late Monday by the girl's mother, Mrs. Anna Brown. Mrs. Brown alleges her daughter has been living with Mock, who accomplished her downfall on the night of November 15, last.

The mother also claims her daughter has contracted a venereal disease from Mock.

Mock was divorced from his wife, Sarah Mock, in the Pettis county circuit court last October. He has employed A. L. Shortridge to defend him.

## GOV. STUBBS' FIRST MESSAGE

Number of Recommendations to the Kansas Legislature.

Topeka, Kas., Jan. 12.—Governor Stubbs delivered his first message to the Kansas legislature that convened here today.

He earnestly recommended the enactment of a public utilities law, praised the operation of the commission plan of government, stamped the primary election law as a triumph for the preservation of popular government, urged a careful consideration of some safe bank guarantee plan, demanded a flat two-cent passenger rate law, declaring the present law to be a humbug, and said the anti-pass statute should be passed.

## THE COLDEST OF THE YEAR

West and Great Southwest Is Feeling the Blizzard.

Kansas City, Jan. 12.—After a fall of snow covering Missouri, Kansas and three-fourths of Oklahoma, the temperature at most points in the southwest this morning is the lowest of the year.

The cold wave extends as far south as Galveston.

Topeka was 10 below; Vinita, Okla., 15 below; St. Paul, Minn., 20 below; Helena, Mont., 16 below; telegraph and telephone service interrupted; Abilene, Kan., 18 below; Clay Center, Kan., 15 below.

WILL J. CRAWFORD, Of Sedalia, Vice President.

this afternoon, when Mayor Babcock delivered the address of welcome.

The business proper of the meeting, such as election of officers, next place of meeting, etc., will be transacted tomorrow afternoon.

The delegates will enjoy a social session at the Elks' Club club rooms tonight.

Among those in attendance are several representatives of eastern manufacturing companies.

Among the topics for discussion before the meeting are: "The Recovery of Bottles," "Local Agreements," "Continued Obedience of the Pure Food Laws," etc.

## MANY MINERS WERE KILLED

By an Explosion at a Coal Mine in West Virginia Today.

Blue Field, W. Va., Jan. 12.—As the result of the weather, an explosion at Lick Branch mine switch, twenty miles from here, between fifty and one hundred miners were killed this morning.

Three hundred miners were at work at the time, and it is not known how many escaped.

## THE HAINS MURDER TRIAL

Will Not Be Given to the Jury Before Thursday

Flushing, N. Y., Jan. 12.—John F. McIntyre summoned up for the defense today in the trial of Thornton Jenkins Hains.

The prosecution will sum up tomorrow.

Thursday the case will be given to the jury.

## THERE WILL BE NO WAR

Turkey Accepts Offer of Austro-Hungarian Government.

Constantinople, Jan. 12.—The Turkish government accepts the Austro-Hungarian offer of \$10,800,000 indemnity for the annexation of Bosnia and Herzegovina, thus removing every possibility of war.

**THE YEARLY TOLL.**

A bulletin of the Bureau of Labor  
goes somewhat at length into the  
statistics and nature of industrial ac-  
cidents, with a view to giving such  
information as might lead to a less-  
ening of their number, says the St.  
Louis Star. By a process of deduc-  
tion and application of statistics taken  
at the last census and during the  
last few years by the labor commis-  
sioners of New York and several  
other states having such officials, it  
places the actual number of fatal ac-  
cidents among occupied males fifteen  
years or more of age at from 30,000  
to 35,000. The total injured is not  
estimated, but it gives partial figures  
to indicate that about 5 per cent of  
accidents are fatal, 15 per cent cause  
permanent disability, such as the loss  
of an arm or leg, and 80 per cent  
temporary disability only, the average  
loss of time not being estimated. On  
this basis it is a fair statement  
that there were in the United States  
in 1908 a total of 600,000 persons who  
received accidental injuries, of whom  
30,000 died, 90,000 were permanently  
disabled and 480,000 went back to  
work after loss of time and expendi-  
ture of money for treatment.

These figures are simply appalling  
in their immensity. They exceed the  
entire casualties of the Japanese-  
Russian war on both sides. The  
whole world was shocked at the loss  
of life in that struggle, and President  
Roosevelt was given the Nobel prize  
for his instrumentality in helping to  
bring the slaughter to an end. Yet  
in the United States alone we are ex-  
ceeding the slaughter of that terrible  
war every year, and little is being  
done to reduce it and still less to care  
for its unfortunate victims. It is a  
toll of death and injury we actually  
pay to the great Minotaur of our in-  
dustrial and commercial supremacy.

It must be granted that accidents  
must always accompany our highly  
mechanized life. So long as we  
build great machines for our people  
to operate, so long as we construct  
huge buildings for them to occupy,  
so long as we dart about the country  
by millions at a high rate of speed,  
and so long as hundreds of thousands  
are sent to die in the bowels of the  
earth, we shall have to pay the con-  
sequences. And, as we are increasing  
these facilities for accidents every  
year, we must expect to pay an in-  
creased toll, except as we may be  
able to reduce the pro rata by more  
careful management. This added care  
must come largely through legal re-  
gulation, and through private effort  
stimulated by a legal responsibility for  
the care of those injured.

While we cannot do much that  
would make a large reduction in this  
annual list of dead and wounded,  
there is no reason why we should not  
accept the principle that care of those  
thus injured in the industrial service  
of the country is a proper charge up-  
on such service. We have no moral  
right, and it is as well an economic  
wrong, to disable for life 90,000 men  
every year and make no provision for  
their support as a legal right instead  
of a charity. The operation of such  
law as we have on the subject, both  
common and statute, amounts practi-  
cally to a denial of such support. Only

a very small per cent are able to en-  
force a claim for damages under the  
law as interpreted by the courts and  
under the rules of practice that ob-  
tain in them. The solution of this  
question is that of an industrial pen-  
sion for those disabled by accident or  
age, and, socialist as this may ap-  
pear, it is what will be our final  
action.

**LOBBYISTS AND LOBBYSTERS.**

A new law passed by the last pre-  
vious legislature has had at least one  
effect upon the Jefferson City lobby—  
to divide it according to experience,  
efficiency and hardihood into two  
two classes—the lobbyists and the  
lobbysters, those who neglect to reg-  
ister and those who register, as the  
law provides, says the St. Joseph  
News-Press.

The lobbyists are the much more  
numerous segment of the "third  
house." The lobbyists, when they  
first arrive, are green, presumably,  
but having registered, blush to find it  
fame. The effect upon them of reg-  
istration is similar to the effect of a  
pot of hot water in the crustacean  
species from which they take their  
name. The shell of the lobbyist is  
thick, but he doesn't propose to take  
any chances with that pot of hot water.

It seems that what is really needed  
at Jefferson City is a law provid-  
ing for the enforcement of the law. As  
it is, the act requiring the registration  
of "third house" members is a joke.  
Those to whom it makes no difference  
whether they register or not—who  
are not a menace to legislation affect-  
ing corporations—have registered;  
the others—the old bottle-scattered vet-  
erans of the lobby, who, for a genera-  
tion, have worked the underground  
wires, have refrained from register-  
ing.

The people are rather tired of the  
"third house," and its brazen impu-  
dence. The business transacted at  
the capital is the public's business,  
and should be public at every stage.  
The lobby registration law was right  
in principle, and steps should be  
taken to test it out in practice. The  
compliance of a half dozen lobbyists  
and the defiance of a score of lobby-  
ists is not a satisfactory situation.

**Had a Joint Installation.**

A joint installation of the officers-  
elect of Russell camp No. 2065, Mod-  
ern Woodmen of America, and the  
Royal Neighbors was held last night,  
followed by a banquet. James Settles  
and Mrs. M. V. Carroll acted as re-  
spective installing officers. There was  
also an address by the Rev. J. J. Set-  
tles and vocal and musical numbers.  
Mrs. Hunefelt, past oracle of the  
Royal Neighbors, was presented on  
behalf of the members of the camp  
with a large and beautiful cut glass  
bowl as a token of the appreciation  
by the members for her efficient and  
excellent services rendered for the  
good of the order during her adminis-  
tration.

Urinary Weakness.

To make up enough of the "Dandel-  
ion treatment," which is claimed to  
be relieving nearly every sufferer who  
uses it for backache, kidney com-  
plaint, sore weak bladder and rheu-  
matism; get from any good prescrip-  
tion pharmacy one-half ounce Com-  
pound Kargon and three ounces Com-  
pound Syrup of Sarsaparilla. Shake  
well in a bottle and take in teaspoon-  
ful doses after each meal and again  
at bed-time.

Those who have tried it claim that  
it acts gently but thoroughly on the  
kidneys, relieving backache and blad-  
der trouble and urinary difficulties be-  
fore you realize it. Many cases of  
rheumatism are known to have been  
relieved within a few days, the pain  
and swelling diminishing with each  
dose.

This simple recipe is said to  
strengthen and cleanse the elimina-  
tory tissues of the kidneys so that  
they can filter and strain from the  
blood and system the poisons, acids  
and waste matter, which cause not  
only Rheumatism, but numerous other  
diseases. Every man or woman here  
who feels that their kidneys are not  
healthy and active, or who suffers  
from any urinary trouble whatever  
should not hesitate to make up this  
mixture, as it is certain to do much  
good, and may save you from much  
misery and suffering after while.

**WAS THE WINE DRUGGED?**

THIS IS THE CHARGE BROUGHT  
BY A WIFE AGAINST HER  
HUSBAND.

**VERY SUDDEN DEATHS OF SIX CHILDREN**

Alleged Father Collected the Insur-  
ance Benefits, After Which  
He Would Not Work Until  
Money Was Spent.

Philadelphia, Jan. 12.—Six children  
of Mr. and Mrs. Frank Fichner, of  
503 Winton street have died in twelve  
years, some of them passing away  
suddenly, so when Mrs. Fichner was  
seized with violent pains after drink-  
ing a glass of wine given by her hus-  
band, she accused him of trying to  
poison her. She repeated this accusa-  
tion in the Fourth and Snyder avenue  
police station before Magistrate  
Hughes, where Fichner stood as a  
prisoner.

It was intimated by the wife that  
inasmuch as all of the children were  
inspired, and that Fichner drew the  
death payments, he has hastened  
their going, an indictment to which  
the husband entered an angry denial.  
He said they died of natural causes.

Magistrate Hughes was inclined at  
first to regard the arrest of Fichner as  
the outgrowth of a family quarrel,  
but when Dr. George Mills, of 214  
McKean street, testified that he found  
Mrs. Fichner suffering with symp-  
toms of arsenical poisoning, it was  
decided to hold the defendant for a  
further hearing to give the police  
time to investigate the wife's story.

Fichner, who is 61 years old, is a  
watchman. His employers speak well  
of his conduct and discredit the al-  
legation that he tried to poison mem-  
bers of his family.

The Fichners came to this city  
from Haddon Heights, N. J., where a  
daughter, Barbara, died a year ago  
after a short illness. After the fu-  
neral Mrs. Fichner had her husband  
arrested on the charge of administer-  
ing poison to their daughter, but  
withdrew the case.

"Almost from the beginning of our  
married life," said Mrs. Fichner, "my  
husband would work only by fits and  
starts. He had all of the children,  
whose ages ranged from 12 to 20, in-  
sured and always collected the claims,  
then would not work until he had  
spent all of the money.

"Now all of our children except  
Charley are gone, and he is sick, and  
when I was taken ill so suddenly,  
after drinking the wine, I could not  
rid myself of the belief that he was  
trying to get rid of both of us. He  
has always acted queerly, has threat-  
ened me various times, and I had him  
arrested as a matter of protection to  
myself and son."

Fichner declared that at his request  
a detective of Camden had investi-  
gated the charges made by his wife  
while they lived in New Jersey, and  
had found them groundless. Mrs.  
Fichner is said to be a student of  
Christian Science, and her husband  
ascribes her motive for charging him  
with crime as simply to defend the  
Eddy cult on pain.

Policeman Tieman, of the Snyder  
avenue station, found a bottle of li-  
quid in the Fichner house, and this  
was sent to the city laboratory by  
Capt. Gallagher to be analyzed. It  
is said to be some medicine that had  
been prescribed for the sick son.

**LABOR LEADER TO SPEAK**

J. KIER HARDIE, M. P., TO ADDRESS  
THE NATIONAL CIVIC  
FORUM TONIGHT.

**ROCKEFELLER'S PASTOR WILL PRESIDE**

The Subject of His Address Will Be,  
"A Revolution in British Poli-  
tics and Its Lesson  
for America."

New York, Jan. 12.—J. Kier Har-  
die, M. P., chairman of the labor party  
in the British house of commons,  
will make an address tonight before  
the National Civic Forum. John D.  
Rockefeller's pastor, the Rev. Dr.  
Charles F. Aiken, who has for years  
been a close friend of Mr. Hardie,  
will preside.

The subject of the address will be,  
"A Revolution in British Politics, and  
Its Lessons for America." Mr. Hardie  
comes to America solely on the in-  
vitation of the Forum, and will remain  
in this country only ten days. This  
will be his only address in New York.  
The announcement of subsequent  
meetings will be made later.

The Civic Forum was established a  
year ago to provide a non-partisan,  
non-sectarian platform in New York  
City for the public discussion of im-  
portant political, educational and  
economic questions by distinguished  
speakers.

The aim also was to promote inter-  
national good will by inviting emi-  
nent foreigners to visit this country  
and speak under the Forum's auspi-  
ces.

Last year ten meetings were held,  
addressed by such men as President-  
elect Taft, William Jennings Bryan,  
David J. Brewer, of the United States  
supreme court; Governor Hughes, of  
New York; Governor Folk, of Mis-  
souri, and Senator Knox, of Pennsyl-  
vania.

Prof. Paul Millyoukov, on invitation  
of the Forum, came from St. Peters-  
burg to New York for the sole pur-  
pose of making one address in Car-  
negie hall, remaining only three days  
in America. Dr. Frederick VanEeden,  
the foremost poet of Holland, who  
had never visited this country, also  
came over to address the Forum. As-  
surances have been given which war-  
rant the expectation that this year  
at least two prominent Europeans  
will speak under the Forum's auspi-  
ces.

The Civic Forum is an educational,  
rather than a reform organization. It  
aims less to denounce specific evils  
and advocate specific reforms than to  
aid in creating in New York and  
throughout the country an atmos-  
phere of civic intelligence and patri-  
otism which will vitalize and make  
effective and permanent all good work  
for the common welfare.

## TUBERCULOSIS

THE GREAT IMPORTANCE OF ITS EARLY DIAGNOSIS.

MANY SUFFER FROM THIS DISEASE AND ARE NOT AWARE UNTIL TOO LATE.

The number of persons who are daily carrying around with them the germs of this most dreadful of all diseases are almost legion. The farther and farther the great scientist of the day progress in their investigations of these poisonous elements that are threatening to depopulate the earth, the more amazed and appalled they become at their startling discoveries. They, one and all, concur in the fact that the ordinary method employed by the average physician in waiting until some of the vital organs are attacked, is lamentably weak, and radically wrong. They strongly advocate the revolutionizing of the whole field of medicine as practiced today, for it is entirely too broad and complicated for any one mind to master. They recommend specializing each branch, for it is the specialist who devotes all his time to a particular class of conditions that produces results that is in keeping with the advancements and evolution of the world.

For the benefit of those who are interested in the subject, The Dr. Camp Medical Co. herewith presents a few of the many symptoms that are very indicative to the trained specialist that a nucleus of this disease is hidden away in some of the deeper structures of the body and only await a favorable opportunity to attack the Lungs or some other vital organ. This is what is called closed Tuberculosis or the masked variety. The early symptoms of this class of cases is a disturbance of the circulation of the nervous system of digestion and assimilation. The face frequently changes color; they are easily excited, are tired in mind and body, have little appetite, restless at night, bowels may act irregular, with irregular or painful menstruation in the female, associated with brittleness of the nails, dryness of the hair and skin; they become irritable with a very inconsistent pulse rising from 70 to 100 or more on the least bodily or mental excitement. A microscopic test of the blood and other secretions shows to the expert the unmistakable signs of tubercular destruction. Such cases if unchecked usually continue until a complete breakdown occurs when nature tries to eliminate the poison with a cough attended with all the pronounced symptoms of quick consumption. If the early history of some of the causes are inquired into, we find that some time in the past they had an attack of malaria which was in truth the beginning of Tuberculosis, the same applies to spells of pleurisy, and last, but not least, the after effects of the "Grippe," which is unfortunately a frequent cause. Tuberculosis of the throat, enlarged tonsils, the stomach, the bowels, and the enlarged glands of the neck are all varieties of this class of cases with varying symptoms according to the progress of the disease. Many cases present themselves with Tuberculosis written all over them, whose blood tests show they have reached an advanced stage of the disease unnoticed. This applies most especially to children and young adults. Another class of cases begins with a hacking cough or more or less catarrh of the nose and throat, with an occasional pain in the chest, inability to breathe deeply without coughing, loss in weight, and indigestion, cold hands and feet, night sweats. The most important symptom in this class where there is no cough is loss of appetite, indigestion, brightness and enlargement of the pupil of the eye at times, particularly in the young.

The above are a few of the most prominent symptoms that should cause alarm of the existing evidence of the GREAT WHITE PLAGUE—CONSUMPTION, and if you have cause to believe that such a condition exists, or are in doubt, you should immediately seek the best medical aid obtainable ere you fill an untimely grave.

THE DR. CAMP MEDICAL COMPANY offers you the best there is in modern medical science for the cure of such conditions.

Their Famous Inhalatorium Treatment for Germ diseases has gained a wide reputation. Many come from a distance to avail themselves of this remarkable cure. Hundreds who had almost lost hope have been restored to health and are now happy and well.

TO THOSE WHO SUFFER. Without a knowledge of your true condition you are groping in the dark. Come to our office and we will make a most thorough, searching and scientific examination of your case, free of charge, and if we find that your condition will yield to the influence of our New System of Treatment, then we will accept your case.

## HAD QUEER EXPERIENCE

MAN WHO IS TO BE PLACED ON TRIAL CHARGED WITH ATTEMPTED BURGLARY.

### STORY OF THOMAS McATEE, OF MAYSVILLE

If It Is True He Is Entitled to Figure as the Hero of a New "Manhattan Nights" Yarn—A Bitter Fight Ahead.

New York, Jan. 12.—If the tale to be told by Thomas McAtee, of Mayville, Pa., when he is placed on trial tomorrow for attempted burglary, is a veracious one, he is entitled to figure as the hero of a new "Manhattan Nights" yarn. That McAtee is truthful and of good character will be affirmed by many of his fellow townsmen, who have come nearly 300 miles to testify to that effect. Over a score of residents of this city have also said that they will be in court to help the alleged bold, bad hold-up from Pennsylvania, and former County Detective Reardon, who makes the charge that McAtee attempted to rob his flat on the night of December 15, will probably have a difficult time in defending his reputation as a Sherlock Holmes.

According to his story, McAtee left his Pennsylvania home to visit Miss Katherine McLaughlin, a pretty school ma'am of Van Hiseville, N. J., and later came to New York. While walking along the street late at night he was arrested by Reardon. The latter says that he caught McAtee and another man trying to get into Reardon's house, No. 146 Waverly place. This McAtee indignantly denies. Here is his story:

"I left Mayville, Pa., about the first of December and went to Van Hiseville, N. J., seven miles from South Lakewood, to visit Miss Katherine McLaughlin. She is willing to tell what she knows about my coming to this city from Van Hiseville. I stayed in the latter place about two weeks and reached New York about 9:30 on the night of December 15. I wandered north as far as Fourteenth street, looking in the shop windows and watching the crowds of Christmas shoppers. It was 11:30 when I started down Third avenue to hunt for the Mills hotel. I walked as far as Fourth street and then figured I was down too far. I retraced my steps and turned west on Seventh street.

"I had reached Sixth avenue in the vicinity of Ninth or Tenth street and was about to turn back to a house where I had seen a furnished room sign. As I turned one of the corners Reardon was standing in the shadow with another fellow whose name is Brazier or something like that. Reardon came alongside me and put his face right up against mine. Then the pair of them kept within reaching distance of me for a block. I had over \$100 in my pocket and I figured that I was about to be held up.

"I quickened my steps and started across the street but they ran and headed me off. Reardon grabbed me and told me I was under arrest. I asked him what for, and by what authority, and he reached in his pocket and pulled out what looked like a badge. He flashed it so quickly that I didn't get a good look at it.

"Reardon then told me he had me with the goods on. He showed me his blackjack and threatened to beat me with it if I tried to escape. He also said he would put a few pills into me. Those were his exact words. Prior to that Reardon had hit me in the mouth and the other fellow struck me on the temple.

"I went along with them and when I saw a policeman in uniform I asked him if Reardon and his friend had a right to arrest me. The policeman looked me over and said, 'I guess you're all right,' and he went away. On the way to the night court they

took a zigzag course, and at one point they backed me up against a building and Reardon proceeded to feel the outside of my pockets. I thought sure that they were going to beat me up and then rob me. I made one effort to get away from them and succeeded in running a short distance before they caught me again.

"If he says I was drunk at the time he tells a downright lie. I am a teetotaler, and I will have scores of witnesses to prove that fact. I was not in his house or any other house that night. I have never heard of Waverly place before this thing happened.

"Naturally I was indignant over my arrest, but when I cooled off I figured out that Reardon and his friend had made a mistake and that when they had time for reflection they would have me released. I didn't write home for a few days, but when I found I had been indicted I knew I had to get busy. I didn't think it possible that an innocent man could be railroaded to prison as they are trying to railroad me."

### WOMAN GOES TO MEET NEGRO

She Made Black, Husband and Another White Man Jealous.

Marion, Ind., Jan. 12.—Letters in possession of the police indicate, they say, that Frank Brown, mulatto, enamored of Mrs. Martin Hicks, aged 23, white, wife of a respected lumber dealer, became jealous after the woman's infatuation for him waned.

Under the guise of telling her good-bye, the evidence in the hands of the police shows the negro lured the woman out at midnight.

Her body, badly charred, was found in the hay loft of a burning barn four hours later. The negro escaped and a posse is in pursuit.

Martin Hicks, the husband, is still in jail. Levi Sutton, white, also under arrest, is charged by Hicks with being attentive to Mrs. Hicks. He is held on suspicion.

The police say both white men and the negro were all jealous of each other and the woman seemed to delight in urging them to mutual hatred over her attentions to each.

## DRANK POISON IN A PLAY

A DRUG IN THE WINE AT A DELAWARE CHURCH PERFORMANCE RECENTLY.

### THE POISON WAS INTENDED FOR ANOTHER

One Actor Merely Wet His Lips With the Drug; Another Quaffed the Poison Potion and Died After Long Suffering.

Marydale, Del., Jan. 12.—Charles L. Pippin, a young business man, is dead as the result of drinking poisoned wine while acting in an amateur play on January 1 and a conspiracy to commit murder is suspected by the police.

A rigid investigation will be made and it is believed there will be sensational developments. Pippin was a social favorite and was engaged to be married to Miss Mand Hummer, a teacher in the local schools. It is believed the poison was not intended for Pippin, but for one of the other actors.

State's Attorney Elmer Dean has been advised of the death and has arranged for an inquest. Dean declares the case will be pushed to the finish and the guilty one given the punishment deserved.

The poisoning occurred during a performance for the benefit of the organ fund of the Methodist church. Pippin, in carrying out his character, was obliged to drink a glass of wine. Howard Griffith, another member of the cast, tasted the wine before Pippin did and, finding it burning, merely wet his lips with it.

Pippin, when his turn came, lifted the glass in the air, gave his toast and swallowed all the liquid at a gulp. The next moment he doubled up, "an off the stage and crld."

"My God, it's burning me up! Give me water quick!"

Dr. H. Evans, who was taking part in the play, hastily gave Pippin temporary relief, and, though he still suffered considerably, he went back before the footlights and played his part through to the end.

Soon after he reached home Pippin again was seized with excruciating pain in the stomach and sent for a physician, who found him seriously ill. He grew worse from day to day, and at last a specialist was called in.

The latter said Pippin had drunk an extremely large dose of poison and that it had been in his system so long there was little hope for recovery. Pippin's death a short time after proved the truth of this prediction.

The officials have given no intimation as to the character of the poison, but it is believed to have been of a highly corrosive nature, for even the small sip taken by Griffith was

## WOOL MEN "STAND PAT"

THIS IS THE SLOGAN OF SHEEP MEN GATHERING AT POCATELLO, IDAHO.

230,000,000 POUNDS WOOL EACH YEAR

Since 1897 the Value of Sheep Owned in This Country Has Increased From \$65,000,000 to \$212,000,000.

Pocatello, Idaho, Jan. 12.—"Stand pat on the tariff" is the slogan of the sheep men who are beginning to gather here today for this week's convention of the National Wool-growers' association.

It is declared that when wool was on the free list the sheep were sent to the slaughter pen. Since 1897, when the present tariff bill was passed, the value of sheep owned in this country has increased from \$65,000,000 to \$212,000,000. The annual production of wool is 230,000,000 pounds. Seventy per cent of the wool used by American mills is raised in this country.

In regard to the national session of the wool growers of the nation President Fred W. Gooding says:

"This meeting is most important to the sheep and wool interests of the entire country, because of the possibility of changes in the tariff on wool and hides, proposed legislation to improve service and lower freight rates on the railroads; discussion of forest preservation and conservation of our natural resources, grazing, depredations of predatory wild animals and best methods of exterminating the pests, the great central storage and market movement inaugurated by this association, and it will be well for the sheepmen to meet at this time and let their views be known on these various questions. No wool grower should neglect this opportunity to express himself and assist in the formulation of plans for the future. The association has accomplished much good for its members and all others engaged in sheep and wool growing, but there remains much yet to be accomplished."

The Mid-Winter Sheep show, which has come to be an important feature of the annual conventions, will be held in connection with this meeting. The cash premiums aggregate \$15,500 and a valuable silver cup bearing the association emblem in gold will be given for the best exhibit. A number of special prizes have also been added. More than four hundred animals are already entered and the show promises to eclipse all previous exhibitions of this kind.

### APPETITE ON A "DRUNK"

The Chicago Health Commissioner Gives Warning.

Chicago, Jan. 12.—In a warning against exposure to pneumonia, Mr. Evans, health commissioner, says:

"Men drunk from liquor and men drunk from overeating are most susceptible to the disease and die of it. The majority of cases of pneumonia are of patients who contracted the disease after a drunken debauch or who were drunk from overfeeding."

"People drunk from overfeeding, I believe, are almost as immoral as those who stupefy themselves with liquors. The efforts of pneumonia in such patients are much the same."

## DISCUSS FARM MATTERS SEDALIA THEATRE

A NATIONAL CO-OPERATIVE SOCIETY OF AGRICULTURISTS IN SESSION.

ARE THREE PROBLEMS OF IMPORTANCE

It is Proposed to Establish a Farmers' Cold Storage Packing Plant, Possibly at Eau Claire, Wisconsin.

Madison, Wis., Jan. 12.—Three problems of importance to the farmers of the country will be discussed during the state convention opened today by the American Society of Equity, a national co-operative organization of agriculturists.

It is proposed to establish a farmers' co-operative cold storage packing plant, perhaps at Eau Claire, to cost not less than \$100,000, wherein hogs and other meat products of the members of the organization can be stored and held for opportune disposal.

Another proposition is to make an organized demand of the state legislature for a liberal appropriation for the enlargement of the binding twine factory now nearing completion at the state prison at Waupun.

A third proposition looks toward the solution of the problem of getting sufficient laborers for the farms. It is proposed that the legislature provide means for free transportation of unemployed laborers from the cities to such country districts as are in need of help. The idea is to establish in a number of cities employment offices from which applicants for work would be shipped transportation free to places where employment was waiting.

The Wisconsin Horticultural society also commenced its annual session today, with a large number of fruit and flower growers in attendance.

### MI-O-NA

Relieves Stomach Misery Almost Immediately.

If the food you ate at your last meal did not digest, but laid for a long time like lead on your stomach, then you have indigestion and quick action should be taken.

Of course there are many other symptoms of indigestion, such as belching up of sour food, heartburn, dizziness, shortness of breath and foul breath, and if you have any of them, your stomach is out of order and should be corrected.

Mi-o-na tablets have cured thousands of cases of indigestion and stomach trouble. If you have any stomach distress, Mi-o-na will relieve instantly.

But Mi-o-na unlike most so-called dyspepsia remedies, does more than relieve; it permanently cures dyspepsia or any stomach trouble by putting energy and strength into the walls of the stomach, where the gastric juices are produced.

A large box of Mi-o-na tablets costs but 50 cents at the W. E. Bard Drug Co., and are guaranteed to cure or money back. When others fail, Mi-o-na cures. It is a producer of flesh when the body is thin; it cleanses the stomach and bowels; purifies the blood and makes rich red blood.

## AMUSEMENTS

### SEDALIA THEATER.

"Uncle Tom's Cabin."

Stetson's Mammoth double production, "Uncle Tom's Cabin" will appear at the Sedalia theater tonight. The rendition of Uncle Tom by this well known and well liked company will never grow old. The management evidently believes in the maxim, "What's worth doing is worth doing well." There runs through this grand story a pathos peculiarly touching and sweet. It speaks the universal language of the heart. It reflects like a mirror the innermost phase of human emotions. It is more than a play—it is a moral classic. It argues for two of the greatest themes that can engage the mind—human liberty and the immortality of the soul. Notwithstanding the frequent production of this play, it is never produced in the sumptuous manner by other companies as it is in Stetson's.

### "The Wolf."

"Have you seen 'The Wolf?'" That seems to be the question everybody is asking his neighbor at present. "The Wolf," with its long run in New York just completed, its enormously successful run in Chicago, will be seen in this city Wednesday night at Sedalia theater. The cast will be one of great strength, and the scenic equipment precisely the same in every detail as that used in New York and Chicago.

"The Wolf" is the great dramatic success of the past season. It is from the pen of Eugene Walter, the author of "Paid in Full," which has also enjoyed long runs to capacity business in both Chicago and New York.

It is entirely different in construction from his former effort, and the majority of critics have pronounced it the best work of this brilliant and very successful playwright. It treats of life in the Canadian Hudson Bay country, and is written in three acts. The first scene is in front of the home of Andrew McTavish, a Scotch trader, on the banks of the Wind river. The second scene is in the interior of the same house, and the third is in the woods at the Portage of Little Bear river.

Years before the opening of the play a half sister of Jules Beaubien, had been betrayed by an American adventurer, and on his deathbed Jules' father orders him to find this Annette and care for her.

Jules goes north on the search, but finds that Annette has met voluntary death in a storm after her betrayal. Determining to find the American and avenge her wrongs, he enlists with one Baptiste LeGrand, a northwestern nomad. Jules finds the betrayer of women about to entrap the daughter of McTavish, with whom he himself is in love. In the end, Jules and Hilda, the fair girl, are united, and the villain is slain in fair fight.

Bitter Attack on the President and Mr. Taft.

Washington, Jan. 12.—in a speech in the senate today, Senator Foraker, of Ohio, declared the diversion of the public funds by the president and William H. Taft, while the latter was secretary of war, to pay for the investigation by private detectives into the Brownsville affair, was illegal.

He characterized the government's use of private detectives as "atrocious, shocking and revolting." Mr. Foraker declared the detectives, in gaining evidence at the president's behest, used fraudulent impersonation, lying, deceit, treachery, liquor and intoxication and promises of immunity.

## SOUNDS WARNING TO BATHERS.

Deafness May Be Brought on by Too Sudden Plunge.

"When the warm weather heats your blood and you long to hie to the cooling seaside and plunge boldly into the briny, pause, hesitate, consider," says an eminent nose and ear specialist. "Observe the numbers of bathers who, during the season evince a sudden deafness, which often lingers for weeks at a time and sometimes becomes a permanent trouble."

"To avoid this do two things. Remember the ancient instruction to wet the top of the head first, and never allow any cold water to percolate to the drum of the ear. Many people do not know that the sudden application of cold to the back of the ear will cause the delicate mechanism to expand sharply under the rush of blood to escape. This is always followed by partial deafness, which sometimes becomes a serious matter. Another thing to watch is the shampoo. The same danger lies here if the hair-dresser is either unskillful or careless. In rinsing the hair the spray should first be applied to the top of the head and gradually brought down to the nape of the neck, thus obviating the trouble."

## NATIONAL BALLOON RACE

St. Louis and Indianapolis the Only Cities Considered.

St. Louis, Jan. 12.—A. Roland Forbes, of New York, vice president of the Aero Club of America, and N. H. Arnold, of North Adams, Mass., are in the city viewing the various sites deemed adequate for the purpose of inflating and sending off the balloons entered in the first annual national race, to be held the first week in June.

Although several cities are making efforts to get the race, Mr. Forbes admitted St. Louis and Indianapolis are practically the only ones in the running. Present indications are that at least fifteen balloons will be entered. Last night the Aero club of St. Louis tendered the visiting aviators a banquet.

The people of Warrensburg recently voted the saloons out of existence in the Quarry City, but if all reports that come to the Democrat-Sentinel are true, the town is far from "dry."

Because of this fact, so this paper is informed, many Warrensburg taxpayers who voted "dry" last summer are now "wet" advocates, on the ground that the licensed saloon that obeys the law is a vast improvement on the "hid" that has no license to pay and knows no law.

New York, Jan. 12.—In spite of predictions of trouble and alterations, practically no difficulty was experienced with the advent of the new pay-as-you-enter cars, 120 of which have been put in service on the Third avenue line.

Passengers smilingly deposited their nickels in the little box on the platform and there was only one case of friction, that in the case of a man who dropped an entire dollar in the box, believing that his change would be automatically presented to him.

When no change was forthcoming he protested to the conductor and as a last resort went to the company's office, where his money was refunded.

**MARSHAL THE MENTAL FACULTY.**

System Necessary to Get Best Work from the Brain.

The normal mind acts under law. The mental faculties will not give up their best unless they are marshaled by system. They respond cordially to order, but they rebel against slipshod methods. They are like soldiers. They must have a leader, a general who enforces order, method. The majority of people get very little out of their brains because they never learn to think systematically. Their minds are like some country stores where everything is jumbled up. There is no order or method anywhere. They browse, or cogitate, but they do not focus their minds and conduct their mental processes with order.

Slovenly mental habits will destroy the finest minds. The strength and persistence of our habitual thought force measure our efficiency. The habitual thought-force in many people is so feeble and spasmodic that they cannot focus their minds with sufficient vigor to accomplish much.

We can quickly tell the first time we meet a person whether his thought-force is strong or weak, for every sentence he utters will partake of its quality. The person who has a negative thought-force betrays his lack of strength in his every word. His language is weak, has no gripping quality.

But the man with a vigorous mentality takes right hold of you, grips your mind with every sentence. His power thrills you, and you feel immediately that you are in the presence of a strong personality. It is the positive, the aggressive thought that creates, that invents. The negative thought is always weak.—Success Magazine.

**DOG SPECTACLES THE LATEST.**

New York Soon May Adopt a Fad Popular in London.

A dog in spectacles is the latest fad. It has not reached New York yet, but Lady Aylesford has been seen in Piccadilly with one of her famous breed of chows in tow, wearing a pair of gold-rimmed spectacles. Her friends smiled, and she explained that the poor doggie's eyesight had become so defective that she had taken him to an oculist, who had fitted him with glasses.

Dogs here in New York have been taken to dentists and their teeth have been filled with gold; they have had their nails manicured by experts, the hair of poodles, spaniels and Scotch terriers have been dressed and curled by "tonorial artists"; some delicate dogs, such as Italian greyhounds, have been dressed in sealskin coats; other pampered pets have worn gold-bracelets and diamond collars; but spectacles seem new. The next step will probably be for some one to fit a British bulldog with a solitary eyeglass and a cigarette.—New York World.

**THE STANDARD OIL BANK**

IS NAME BY WHICH NATIONAL CITY BANK OF NEW YORK IS BEST KNOWN.

**A NEW PRESIDENT WAS ELECTED TODAY**

The Honor Went to Frank A. Vanderlip, Who Was Vice President—Mr. James Stillman Was the Retiring Head.

New York, Jan. 12.—Frank A. Vanderlip, former assistant secretary of the treasury, will become president of the National City Bank, following today's session of the stockholders.

Mr. Vanderlip is now vice president of the institution, which is known as the "Standard Oil bank," and is the most important financial organization in the country. He will succeed James Stillman, who for the past two or three years has spent most of his time in Europe.

Mr. Stillman's retirement has been anticipated, for with the exception of the panic period, he has not latterly been as active as was his custom in financial affairs. He has resigned from many boards, including those of the Harriman lines, and in every case has been succeeded by Mr. Vanderlip. On his retirement as president of the National City bank he will become chairman of the board of directors, it is expected, and while concerning himself not at all with the ordinary business of the institution, will remain in a position to give his advice on momentous occasions.

Mr. Vanderlip entered the National City bank as a vice president early in 1901, resigning as assistant secretary of the treasury to accept the new post. He has been active and prominent as a banker, one of his achievements having been the organization and building up of the bond department of the bank. He has also delivered notable addresses on business and financial conditions.

Mr. Vanderlip is still a young man, having been born on Nov. 17, 1864, at Aurora, Ill. He attended the public schools when a boy, later spending a year at the University of Illinois, where he worked his way and finally became a reporter and then financial editor of the Chicago Tribune. From that post he resigned to become secretary to Lyman J. Gage, secretary of the treasury, and in July, 1897, was made an assistant secretary of the treasury, in which office he gained especial reputation through his able management of the details of the Spanish war loan of 1898. last year Mr. Vanderlip has succeeded Mr. Stillman as a director and member of the executive committee of several important corporations, among them the Union Pacific Railroad company and the Consolidated Gas company.

The National City bank, which recently removed from No. 52 Wall street across the way to its splendid new quarters in the remodeled custom house, is the largest bank in the United States, having a capital of \$25,000,000, which is also the capital of the National Bank of Commerce; surplus and undivided profits in excess of \$25,000,000, and loans and deposits of about \$183,000,000 each.

**FARMER NOT TO BE TRAPPED**

This One Was Taking No Chances on a Possible \$300 Fine.

The government weather bureau supplies daily thermometer readings, quantity of rainfall and the forecast for the ensuing 24 hours to farmers along rural routes who apply for them. The data are stamped with rubber type upon one of the franked government cards and dropped in the rural mail box by the rural carriers each day.

On a western route a farmer had applied for the forecasts, and they were dropped regularly in his mail box each morning, but he failed to take them out, and the accumulation of cards became so great it nearly filled the box.

An inspector, going over the route, dropped in at the farmhouse. "Why don't you make use of the weather forecasts?" he inquired. "Didn't you apply for them?" For reply the patron of the rural route led him out to the mail box and put his finger on the corner of one of the cards, where was printed:

OFFICIAL BUSINESS.  
PENALTY FOR PRIVATE  
USE, \$300.

"You fellows ain't going to soak no \$300 into me," he declared, putting the card back into the box.

And the inspector had some difficulty in explaining that no penalty would attach to the removal of the card.

**HAD DONE WORK THOROUGHLY.**

Corporal Literally Obeyed Orders of Post Commandant.

Gen. Clarence Edwards, chief of the insular bureau of the war department, tells how an Irish corporal got even with an unpopular post commander in Cuba. This post commander, though an excellent soldier, was something of a crank. He had two hobbies. One was that the liberal use of whitewash was the best possible preventive of disease, and the other was a pet flamingo, an ill-natured bird that was disliked heartily by the enlisted men because it never overlooked an opportunity to nip one of them.

One day the post commander had to go to Havana, but he could not endure the thought that anyone should be idle in his absence. It had been fully a week since any whitewashing had been done, so he issued an order that "all articles pertaining to the camp not sheltered from the weather" should be whitewashed. The Irish corporal was intrusted with the execution of the order.

The post commander returned next day, and pretty soon the air was fairly blue with his cursing. The soldiers heard the noise, but they were not curious. They knew what it was all about. The post commander's brilliant flamingo was white as a snowy heron.

Pronged. "I have good reason," said the head of the establishment, addressing the cashier, according to the Chicago Record-Herald, "for believing that you are living beyond your means."

"You are mistaken sir. I am willing to have a thorough inspection of my accounts at any time."

"How does it happen, then, that you are able to have a big automobile?"

"Oh! Ha, ha, ha! That comes of having a wife who can write poetry."

"Poetry! Bah! Who ever heard of anybody earning enough writing poetry to have an automobile?"

"That's all right. She won it in a Limerick contest."

### KNOWS WHAT BEAT HIM

HON. W. J. BRYAN TALKED AT THE JACKSONIAN CLUB'S MEETING LAST NIGHT.

### HIS SUBJECT, "WHAT OF THE NIGHT"

Bigger Campaign Fund, Federal Employes, Most of Press and Other Things Caused Defeat of Democracy.

Omaha, Neb., Jan. 12.—The Jacksonian Club of Nebraska celebrated the victory of Andrew Jackson at New Orleans last night with a banquet at the Paxton hotel, at which William J. Bryan was the principal speaker.

The gathering was an enthusiastic one, and cheered heartily the strains of "Dixie," which an orchestra in the rotunda played while the democratic leaders filed into the banquet room.

Governor Shallenbarger, who was one of the speakers, addressed himself to local affairs, his subject being "Nebraska," and Mr. Bryan closed the evening with a half hour's speech on "What of the Night."

Mr. Bryan reviewed the political contests of the last twelve years. He described in detail the influences which were most potent in the late campaign as "a larger campaign fund, an army of government employes drawing their salaries from the treasury, three-fourths of the newspapers or more against us, and the coercive power of concentrated wealth."

### MOTIVE BEHIND CRIME

Officials So Believe in the Case of Rev. Carmichael.

Carthage, Ill., Jan. 12.—Dispatches from Michigan reveal unwillingness on the part of officials to accept the theory of insanity as evolved in the strange confession of the Rev. John Haviland Carmichael, the slayer of Gideon Browning.

The officials reject the idea that Browning hypnotized Carmichael, and believe there was a deep motive behind the crime.

We guarantee the "Atlas" flour to be as good as Vigor.

### RUMBLINGS OF THE RAIL

ALL TRAINS IN AND OUT OF SEDALIA WERE "OFF" SEVERAL HOURS TODAY.

### COACH CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

The cold spell last night played havoc with the railroads greatly demoralized traffic. The Missouri Pacific, heretofore known as the "Old Reliable," gave up the ghost entirely last evening, but the M. K. & T. kept plugging away.

All trains from the east and west on the Missouri Pacific arrived several hours late, even the fast mail train running nearly four hours behind schedule time.

Nos. 9 and 10, due here in the early hours of the morning, arrived at 7 o'clock, while both the S. W. & S. W. and Hi Lewis' train, No. 37, were greatly delayed on account of no engines.

Failure of locomotives on the Missouri Pacific caused the greatest trouble.

M. K. & T. trains Nos. 2 and 3 each arrived several hours late, while the north bound flyer, No. 6, was almost seven hours late, and that, too, after dropping one of double-header engines sent out from Parsons.

South bound flyer No. 5, due here at 3:12 a. m., arrived at 9 o'clock this morning.

### Abolish the Commission.

Bills will be introduced in the legislature to abolish the railroad commission. For all the good it has done it might as well be wiped out, declares the Osceola Democrat.

Among its other duties it is supposed to see that the roads have good tracks and the people fair service. It inspects the road from the rear end of a coach going at the rate of thirty miles an hour, and complaints of the people are wisely looked over and then pigeon-holed and forgotten.

About the most arduous duties connected with the work is signing receipts for salary.

### Missouri Pacific to Pay \$2,500.

Judge Broadbuss, of the Kansas City court, of appeals Monday affirmed the decision of the Pettis county circuit court in the \$20,000 damage suit of Julia Fischer against the Missouri Pacific railway for polluting Fischer's lake, and awarded plaintiff damages in the sum of \$2,500. Montgomery & Montgomery were plaintiff's counsel.

Miss Fischer instituted suit in circuit court here on Nov. 2, 1907, and on May 26, 1908, a verdict was re-

### "Washclean"

Washes Everything But the Baby—

The greater number of the forty merchants now handling "Washclean" in Sedalia are giving us the most favorable reports. We regret our inability to demonstrate the merits of "Washclean" to every woman in Sedalia, and as a duck takes to water, so you will to "Washclean," as thousands of women have who are now using it.

"Washclean" is not a compound based upon strong chemicals—there is where it shines absolutely. It is a concussive proposition, so mild, so pure, so gentle in its action that we guarantee it will not dull the color or injure the most delicate fabric of any article that water will not harm—and will most effectually remove the dirt without the aid of board or machine.

No rubbing—no tussling with a washing machine—in fifteen minutes our washing is done.

### "Tom" Heston Has Resigned.

Thomas Heston, the genial Missouri Pacific agent at Boonville, has resigned his position to take another as train auditor, says the Boonville Democrat. He expects to be relieved here in a few days. His family will remain until spring and then move to Kansas City. They have a son there now.

We are sorry to lose Mr. Heston and his family from our midst.

### Trains Were Doubled Up.

Missouri Pacific trains Nos. 3 and 11, the former due here at 4 a. m. and the latter at 4:45 a. m., were coupled together at Washington, Mo., this morning, owing to the scarcity of engines and the inability of those on hand to do the work, arriving here at 1:30 o'clock this afternoon. Engines Nos. 5506 and 93 pulled the train. The trains were again divided at this point and sent west separately.

### Automatic Couplers.

Eighty-four patients are registered at the M. K. & T. hospital. Arthur Frakes, roadmaster for the Katy, went to Green Ridge today. Patrick O'Connell, a Missouri Pacific engineer, is ill with rheumatism. Lee Hull, a Missouri Pacific brakeman, is ill with an attack of bronchitis.

The Sedalia excursion to Jefferson City returned here at 5 o'clock this morning.

W. B. Roach, a Missouri Pacific brakeman, is ill with a contusion of the left foot.

James Hough, formerly employed at the Katy yard office, left today for Yoakum, Texas.

George Brittendall, division lineman for the Missouri Pacific, made a business visit at points on the west end today.

R. H. Oglesby, a member of the state board of railroad and warehouse commissioners, is in the city on business today.

L. F. Bacon, traveling passenger agent for the Santa Fe railway, with headquarters at Kansas City, was here today on business.

F. C. Richardt, traveling passenger agent for the Southern railway, with headquarters at St. Louis, was a business visitor here today.

Joseph Royce, a Katy bridgeman from Red River, Texas, and Henry Evans, a bridgeman from Sherman, Texas, are new patients at the company hospital in this city.

On account of no engine, Pat Curran's train on the Warsaw line, due to leave here at 7:15 a. m., left at 11 o'clock this morning, while train No. 37 was delayed forty-five minutes on the same account.

W. H. Hall, assistant superintendent of telegraph for the M. K. & T., who is ill with hemorrhoids, is now able to sit up at his home, 822 West Sixth street, and will likely resume work next Monday.

"Jack" Lafferty's train on the Lexington branch line isn't so bad after all. This train never makes any pretention of arriving on time, but bad weather never delays it more than ordinarily. Today the train arrived only twenty-five minutes late, while all other trains, including the fast mail, were hours behind schedule.

### LETTER MYSTERY CLEARED

Helen Sampson Wrote Love Missives Found in St. Louis.

St. Louis, Mo., Jan. 12.—The mystery of the authorship of letters found on the desk of Earl McCourtney, who was found dead from a revolver shot in his office in the Century building, was cleared definitely yesterday when Miss Marjorie Sampson, daughter of the late Clark H. Sampson, who was the Corticelli Silk Co.'s western head here, speaking for her younger sister, Miss Helen, aged 19, admitted the latter was the "Helen" betrothed to McCourtney, and the writer of probably all the love notes.

The McCourtney inquest, finished yesterday, resulted in a verdict of suicide.

After a verdict of suicide had been returned anonymous telephone messages were received by the police that McCourtney had been the victim of a plot.

### Eloquent Lecture Assured.

Miss Jane Brownlee, who lectures on "Education of the Children," under the auspices of Sorosis at the First Christian church tomorrow afternoon and night, is one of the most eloquent speakers now before the American public, and both ladies and gentlemen are urgently requested to hear her.

Miss Brownlee's coming to Sedalia is made possible by the ladies of Sorosis, who will pay all expenses incurred for the occasion, and surely the public will not permit the opportunity to pass without hearing this famous speaker.

### KIEL IS NAMED MESSENGER

St. Louisan Beats Major Keller to Carry Missouri Votes.

Jefferson City, Mo., Jan. 12.—It required thirteen ballots for the republican presidential electors, who met here yesterday to elect Henry W. Kiel, of St. Louis, messenger to carry the vote of Missouri to Washington. Major Sam Keller, of Jefferson City, Globe-Democrat correspondent, who aspired to this honor, received 9 votes for ten ballots, when Mr. Kiel got 10 and was elected.

Major Keller's defeat was largely due to the idea that as St. Louis had failed to get the speaker of the house, some balm was due the republicans there.
